

# MORGAN SINDALL

Basel  
Academy

Founded in **2013**

**8'000** training hours per year

**5** training days per employee per year

In our line of business; technology and skills play a very important role. Our customers demand that we provide innovative, expert solutions, in a challenging technical and regulatory environment.

At Morgan Sindall, one of our core values is 'Talented people are the key to our success'. Therefore in 2013 we founded the Basel Academy, to ensure that both our employees and customers can have access to industry-leading specialist knowledge.

Our academy challenges both employees and customers to expand and share their professional skills and know-how by focusing on current industry best practice, and applying that to their workplace. Particular emphasis is placed on developing successful working relationships and creating synergy to maximise the effectiveness of project delivery.

To encourage learning, we bring participants and experts together in an inspiring, professional learning environment.
